## EDUCATION

Master's in Software Engineering

**BTH-Blekinge Institute of Technology, Karlskrona, Sweden**

January 2019-Present

Bachelor's in Computer Science and Engineering

**Jawaharlal Nehru Technological University, Kakinada, India**

August 2014-January 2018

## PROJECTS

Responsive personal portfolio website

**Personal project**

March 2021

- I built a responsive personal portfolio website using the basics of front end development. The entire website is built mostly using HTML and CSS and the minimal functions using vanilla Javascript. I used bootstrap for some icon templates.
- Techs: HTML, CSS, JavaScript, Bootstrap, VS Code

Setting up a CI environment

**BTH-Blekinge Institute of Technology, Karlskrona, Sweden**

January 2019 – March 2019 Karlskrona, Sweden

- This project is about setting up a continuous integration (CI) environment that can build the software project and execute tests automatically. The environment responds to developer code pushed and from push, we built the entire system and ran unit and integration test cases along with system tests.
- Techs: Java, Maven, Jenkins, Eclipse, GitKraken.

INCEpTION

**BTH-Blekinge Institute of Technology, Karlskrona, Sweden**

September 2019-November 2019

- INCEpTION is an open source annotation providing platform. We(as a team) evaluated the software, refactored it and implemented a new feature as well.
- Techs: Java, XUnit, SonarQube, Eclipse, Git.

Robotic software development using DevOps

**BTH-Blekinge Institute of Technology, Karlskrona, Sweden**

January 2020- Present

- This is the Master Thesis topic which I'm currently working on .

## ABOUT ME

An outcome-driven UI developer focused on creating simple solutions for complex problems. I enjoy collaborating with teams and embracing the intricacies that makes projects successful. I'm a master's student in software engineering currently working on my thesis and expecting to graduate soon.
